

# Kernow Connect:

## Features Breakdown

- **Add Receipt:** User can take pictures of their receipts or upload from their gallery on their phones. This uses OCR and AI to read the date and amount, it will also attempt the supplier.
- **Calculate Mileage:** User inputs start and end post codes, and then the mileage is calculated automatically at 45p per mile.
- **Reimbursements:** This is where all receipts and mileage claims go to and can be tracked.
- **Bank Statements:** Once a month upload a bank statement to evidence budget spending.
- **Closed Months:** Where you can see all receipts and bank statements uploaded for any month.

# Add Receipt

Follow these simple steps to submit your expenses.

## 1. Take Photo/Library

**Add Receipt**

Take Photo

Choose from Library
